

Children's Safety Survey

Some children from Hamp Academy have been selected to represent the school at a Somerset Youth Parliament event in March. During the event, the children will be giving a presentation about a topic of their choice concerning young people. After much discussion and research, the youth parliament group at Hamp have agreed on the topic: Safety in the Local Community. As part of their research, the children in the parliament group would like you to fill out a short survey regarding safety in the local community.

Thank you for your time.
